

**PCLaw Plus®**  
One firm. One platform.

**PCLaw Plus®** is more than just a back office accounting and billing system. It is an integrated, affordable solution designed for small law firms, enabling you to manage your practice from one system, including time management.

Once your software has been installed, you will continue to receive industry leading support and software updates as part of your subscription.

Every minute a solicitor spends on administrative tasks, like managing the books, is a minute less to practise law.

PCLaw Plus combines practice management software, precedents and online research tools into a single package that improves and streamlines your daily workflow.

PCLaw Plus helps you to save time, improve profitability and boost client satisfaction.

### An Integrated Solution

- Eliminate errors with the auto fill feature. Forms and precedents are populated with information, such as client and firm details, extracted from a matter.
- Reduce the amount of time spent on research and maintain your firm's reputation by accessing the most trusted legal publications in Australia.
- Streamline the billing, accounting and time management functions of your practice.

### Quality, Value and Support

PCLaw Plus lets you manage your entire practice with an affordable solution, giving you access to current software, forms, precedents and research, in one package.

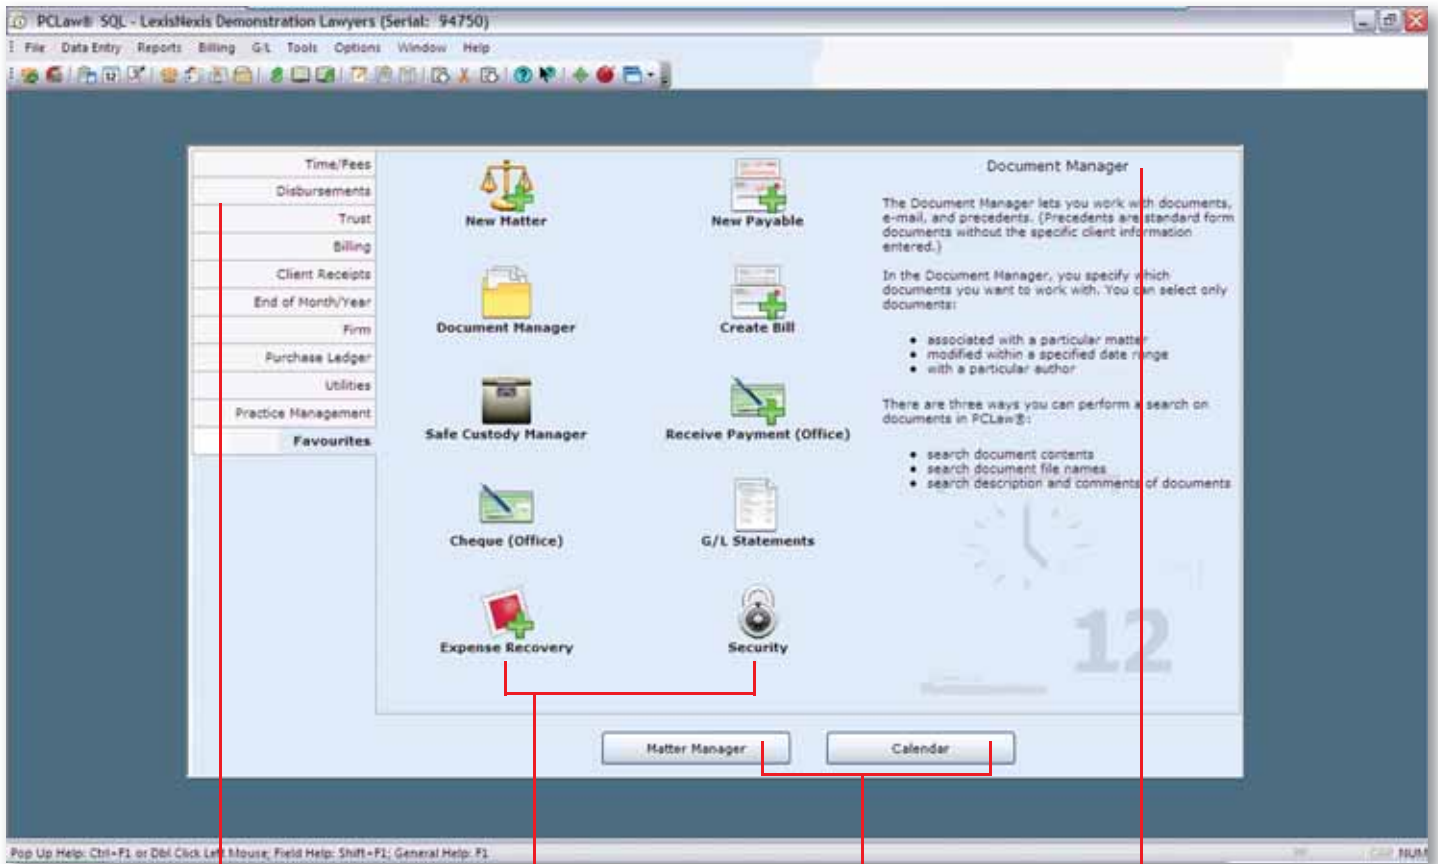

Gain peace of mind with an all inclusive solution which includes industry leading installation, training, software updates and telephone support.

*"I didn't need to look any further as this product covers all bases. Not only does it give me the accounting software to deal with trusts and office accounts, it also includes the document management system which gives me access to all my precedents, and also provides me with the research which is a real bonus."*

**Angelo Bonura**, Sole Practitioner of Bonura Legal, Australia
