Michele McSherry
Time & Data Management Software Consulting Pty Ltd
P.O. Box 912H Edge Hill QLD 4870

Dear Michele

Thank you very much for the support that you have provided us with over recent times in relation to the Timeslips time management system.

We have used this software for over 10 years, but without the functionality that you have now enabled.

Your professionalism, understanding of our requirements and intimate knowledge of the software have all combined to deliver an outstanding result for us. We have moved from having a simple time recording database to using a powerful management system that not only provides better information in a more timely manner but also saves us at least ½ a day of administration work per month.

Thank you very much for your assistance. We wish you well for many more successes with other clients of Time & Data Management.

Yours sincerely

John Barrington
Managing Director
